Mastering Maritime Disruptions: Economic Insights and Strategic Solutions

نقابة ملاحه الأردن
JORDAN
SHIPPING ASSOCIATION

- Understand the nature and significance of shipping disruptions in maritime operations.
- Identify strategic maritime routes and factors causing disruptions, including natural disasters, technological failures, and geopolitical events.
- Evaluate the economic and operational impacts of disruptions on freight rates, market opportunities, and technology adoption, identifying winners and losers.
- Apply theoretical knowledge to real-life scenarios through group activities assessing the impact of disruptions on various stakeholders.
- Provide an in-depth analysis of the Red Sea crisis, its strategic importance, and implications on maritime trade.
- Analyse the specific impact of the Red Sea crisis on Aqaba's port operations and trade flux, exploring mitigation measures and alternative strategies.
- Develop strategic responses to maritime route disruptions through group activities, assessing trade impacts and proposing alternatives.
- Summarize key learnings, address participant questions, and provide closing remarks to consolidate the training experience.

Training Schedule

Time	Activity
------	----------

09:15 – 09:45	Welcome & Introduction
----------------------	-----------------------------------

- Overview of today's agenda
- Introduction to Shipping Disruptions

10:00 – 10:45	Strategic Maritime Chokepoints & Disruption Factors
----------------------	--

- Key maritime routes and their strategic importance
- Overview of disruptions: natural disasters, technological failures, geopolitical events, and more

10:45 – 11:00	Coffee Break
----------------------	---------------------

11:00 – 11:45	Economic & Operational Impacts of Shipping Disruptions
----------------------	---

- How disruptions impact freight rates, market opportunities, technology adoption and more
- Winners and losers from these disruptions

11:45 – 12:45	Group Activity – Assessing Winners & Losers in Disruption Scenarios
----------------------	--

- Groups to analyse given real-life disruption scenarios (e.g., natural disaster, technological failure)
- Each group identifies benefits and drawbacks, the winners and losers from these disruptions

12:45 – 13:00	Coffee Break
----------------------	---------------------

Training Schedule

Time

Activity

13:00 – 13:45 The Red Sea Case Study

- Importance of the Red Sea
- Recent developments and implications
- Analysis of the crisis and its impact

13:45 – 14:15 Impact of the Red Sea Crisis on Aqaba and Exploring Alternatives

- Impacts on Aqaba's port operations and trade
- Measures taken to overcome the impact
- Alternatives for Aqaba, Advantages & Disadvantages
- Discussion on logistics, costs, and operational efficiency

14:15 – 15:00 Group Activity: Analyzing Maritime Route Disruption Scenarios

- Analyze disruption scenarios where a specific maritime route is closed
- Assess impact on trade and propose alternatives
- Present and discuss findings

15:00 – 15:30 Wrap-up, Q&A and Lunch

- Q&A session and closing remarks
- Lunch

About the Lecturer: AbdulRahman Taleb Ali

AbdulRahman Taleb Ali is a seasoned maritime and logistics professional with over 20 years of experience in the industry. He currently serves as the Operations Manager at Gargour Shipping Company, where he oversees a broad range of operations including ship agency, liner business, and logistics management. His career is marked by significant achievements in maritime transportation, container liner vessel operations, dry bulk and break-bulk vessel operations, cruise line operations, military logistics operations and consultancy projects.
